Work Experience

Intern, Orion Innovation Turkey, Turkey   02/2023-Present

I am currently completing a long-term internship as a web developer at Orion Innovation Turkey. Throughout my internship, I have been utilizing various technologies, including Javascript, HTML, CSS, Node.js, Express.js, and MongoDB. My primary responsibility has been to develop a task-tracking application.

Intern, NETAS, Turkey   03/2022-09/2022

Learning about web technologies such as HTML,CSS, JavaScript and React by interacting with real world applications. Constantly developing educational side projects to improve myself. Assisting the team for current developing products. Experiencing Scrum and team work. Moreover, widen my knowledge about other software engineering branches.

Student Assistant, Bahcesehir University, Turkey   10/2018 – 06/2020

Assisted the team for managing the distance learning materials of Bahcesehir University such as itsLearning, Adobe Connect and SAP. Successfully completed multiple task during work years; data transportation of older course details, video/graphic design about lectures, handling student datas for MLS.

Education

BSc, Software Engineering
Bahcesehir University, TR (100% Scholarship)

2018 – Present
